1. INTRODUCTION

Integrated Development Planning is a **process** through which municipalities prepare a strategic development plan, for a five year period. The Integrated Development Plan (IDP) is a **product** of the integrated development planning process. The IDP is a principal strategic planning instrument which guides and informs all planning, budgeting, management and decision-making in a municipality. In terms of Section 28 of the Municipal Systems Act (No 32 of 2000), municipalities are required to prepare a process that will guide the planning, drafting, adoption and review of the Integrated Development Planning.

All municipalities have to undertake an integrated development planning process to produce integrated development plans (IDPs) as required in terms of the Section 32 of the Municipal Systems Act (No 32 of 2000). The IDP is a legislative requirement and it has a legal status, and it supercedes all other plans that guide development at local government level.

The 2019/20 IDP Review will serve as a second cycle of the review process of the 2017/22 IDP as required in terms of Section 34 of the Municipal Systems Act (No 32 of 2000).

2. FRAMEWORK PLAN

The District Municipalities are required to prepare and adopt Framework Plans which indicate how the District and Local Municipalities will align their IDP's. The Framework Plan provides the linkage and binding relationship to be established between the district and local municipalities in the region and in doing so, proper consultation, coordination and alignment of the review process of the district municipality and various local municipalities can be maintained.

The function of the Framework Plan also serves to ensure that the process of district and local IDP's are mutual linked and can inform one another. If parallel processes are supposed to be smoothly inter-linked, one has to agree on a joint schedule and some crucial joint milestones. This will be done through the Framework Plan which the district has been in charge in drafting, and it will be agreed to by local municipalities and as it will be used by all municipalities as a basis for drafting their Process Plans.

3. KEY MATTERS OF IDP ALIGNMENT

In order to ensure that the requirements of the IDP Review are met, and that proper co-ordination is regulated between and within the different spheres of government (local and provincial, vertical and horizontal), there is a need for the preparation of a process plan. The process plan serves as a good base for the municipality in addressing the following issues:

- **Comments from the MEC** for Co-operative Governance and Traditional Affairs need to be considered as part of the IDP preparation process;
- Consider new **Council priorities**;
- Since the completion of the 2018/19 IDP, **new information** has emerged and **priorities** have changed;
- The municipality is currently preparing various **Sector plans**. As such, the impact that these sector plans will have on the district as a whole need to be taken into account when undertaking the IDP Review;
- Implementation and alignment to the **New policies**;
- Ensuring the **involvement** of Councillors and their Constituent Communities;
- Ensuring **alignment** with the Local Municipalities and Sector Departments particularly with regards to programmes, projects and sector plans;
- **Interaction** with funding and implementing agents;
- Appropriate **mechanisms, processes and procedures** of consultation and participation for local communities, sector departments,

stakeholders and also feedback mechanism to ensure responsiveness to communities; and

- Addressing and alignment of issues for Operation Sukuma Sakhe / Back to Basics campaign which serves to reach out to more poverty - stricken communities, with the intention of making maximum impact on those communities in the shortest possible way, and also to ensure that communities including the private and the public sector join forces to fight against poverty.

6. ALIGNMENT MECHANISMS

6.1 Horizontal Alignment

Alignment of the Umzinyathi IDP with the local municipalities is imperative to ensure that there is a sharing of information – particularly with regards to strategies, objectives, programmes and projects, and it will be undertaken through the Joint Project Steering Committee which convenes on Quarterly basis. The meetings of the Joint Project Steering Committee will assist the district family to monitor the alignment and integration of issues constantly.

6.2 Vertical Alignment

Alignment with Sector Departments and Service Providers will also take place as it is essential in order for the district family of the municipalities to have consistence planning and also priorities can be indicated in their project prioritization. This will be undertaken through various meetings or one-on-one basis.

The district will convene two IDP_LED Technical Committee Meetings (IDP Representative Forum), the first session will be in November 2018 to discuss integration issues and also to present to Sector Departments the key municipal priorities which require funding for implementation in 2019/20 financial year, and the second session will be in March 2019, to obtain feedback from Sector Departments and also for integration.

6.3 Cross Boarder Alignment

Cross border alignment meetings, Umzinyathi District Municipality will also be arranging meetings with cross border district municipalities to align and integrate issues of functional areas on the IDP, Spatial Development Framework and Disaster Management. It will also assist the municipalities to align development issues in an efficient, effective and sustainable manner especially where there are shared and interdependent functional areas across the district.

The municipality also has in place other intergovernmental forums to enhance the preparation of the IDP and its implementation. These forums include amongst others but not limited to the District Co-ordinating Forum, Municipal Managers Forum, Planning and Development Forum, Infrastructure Forum, Communicators Forum, Disaster Advisory Forum etc.
